National Comprehensive Cancer Network Average Risk Breast Cancer Screening Guidelines

Women \geq 25 but $<$ 40 years:

Clinical Breast Exam 1 to 3 years

Breast Awareness - women should be aware of changes and report promptly. Periodic, consistent breast self-exam may facilitate breast self awareness.

Pre-menopausal women may find breast self-exam most informative when performed at the end of menses.

Women \geq 40 years:

Annual clinical breast exam

Annual Screening Mammogram - no upper age limit, consistent terminology with ACS recommendation

Breast Awareness - see above.
